EDUCATION

2018 · 2020
MSc in Quantitative Finance and Insurance
University of Turin

2015 · 2020
Master of Research in Economics
Collegio Carlo Alberto

2015 · 2018
Bachelor in Economics
University of Turin

CORE EXPERTISE

Tools : Python, SQL, R, MATLAB, Power BI

Models : Machine learning, forecasting, risk

CERTIFICATES

2026 WeSTEM+ Applied Data & AI (in progress)
2023 LSE Financial Mathematics
2022 UZH Blockchain
2021 IBM Data Science
2019 ARPM

LANGUAGES

English	**C1/C2**

Italian	**Native**

PROFILE

I am a Data Scientist with experience in financial research, liquidity risk and banking data. I use Python and SQL to build datasets, validate predictive models and turn analysis into documented workflows.

PROFESSIONAL EXPERIENCE

Data Scientist & Researcher — FEB 2022 · APR 2026
University of Luxembourg, Luxembourg

- Built GDP forecasting models for 106 countries and validated them out of sample.
- Designed financial models for 875,389 NFTs and coordinated two researchers.
- Taught four quantitative courses, each with over 30 students.

Liquidity Stress Testing Analyst — FEB 2021 · DEC 2021
DWS Investments S.A., Luxembourg

- Helped design liquidity stress tests for passive money-market funds.
- Supported production rollout in four months with IT and a team of over 15.
- Used Python, R and MATLAB for analysis; translated methodology into Aladdin.

Quantitative & Compliance Analyst — JUL 2019 · OCT 2019
Accenture, project for Intesa Sanpaolo, Turin, Italy

- Unified over 10 million banking source files into a dataset using SQL and Python.
- Built a logistic model to classify accounts under the Payment Accounts Directive.
- Aligned Compliance, IT and Marketing requirements; presented to management.

Data Analyst — MAY 2017 · SEP 2017
London Mutual Credit Union, London, United Kingdom

- Automated OCR for over 80,000 documents in about six weeks using MATLAB.
- Built credit scorecards using Python and MATLAB on consolidated loan data.
- Replaced manual entry with one click; documented and presented the workflow.

RESEARCH AND PUBLICATIONS

Out-of-Sample Predictability of Long-Run Economic Growth — 2023 · PRESENT
Nekrasova, E., Pénasse, J., Tugnetti, A.
Working paper

Pricing Dynamics and Herding Behaviour of NFTs — 2025
Fridgen, G., Kräussl, R., Papageorgiou, O., Tugnetti, A.
European Financial Management, 31(2), 670-710

Non-Fungible Tokens : A Review of Pricing Determinants, Applications and Opportunities — 2024
Kräussl, R., Tugnetti, A.
Journal of Economic Surveys, 38(2), 555-574
