Alessandro Tugnetti

Data Scientist · PhD in Finance

Luxembourg alessandro.tugnetti@live.it

Website LinkedIn GitHub

I am a data scientist based in Luxembourg with a research background in finance and economics. I work with complex data, statistical models and machine learning to investigate economic questions, evaluate forecasts and communicate results. I completed my PhD in Finance at the University of Luxembourg in April 2026.

Experience

Doctoral Researcher in Finance

University of Luxembourg · February 2022 – April 2026

Research in empirical finance, digital assets and long-run economic forecasting. Developed a Kalman-filter-based approach to reconstruct missing GDP observations and evaluated forecasting models out of sample. Co-authored two journal articles and contributed to university teaching.

Liquidity Stress Testing Analyst

DWS Investments S.A. · February – December 2021

Contributed to quantitative liquidity-stress-testing frameworks for money market funds and collaborated with IT to translate analytical models into production use.

Quantitative Finance and Compliance Specialist

Accenture · July – October 2019

Analysed bank-account models for an Intesa Sanpaolo project concerning the Payment Accounts Directive. Built an integrated analytical dataset and communicated statistical results to management.

Data Analyst Intern

London Mutual Credit Union · May – September 2017

Processed loan-application documents using OCR and developed credit-scorecard analysis, principally in MATLAB.

Education

PhD in Finance

University of Luxembourg · 2022–2026

Essays in Empirical Finance. Defended on 27 April 2026.

MSc in Quantitative Finance and Insurance

University of Turin · 2018–2020

Master of Research in Economics

Collegio Carlo Alberto · Awarded 2020

Completed through the Allievi Honours Program.

Bachelor in Economics

University of Turin · Awarded 2018

Teaching

University of Luxembourg. Four curricular courses, plus the Python Camp.

Leadership & Volunteering

Co-founder and Vice President

QFI Alumni & Students Association · October 2025 – Present

Developed the career-support framework, including mentoring and alumni connections. Coordinate research on alumni sectors, roles, progression and geography, including compensation where available. Contribute to the association's strategy and research agenda; planned outputs aim to guide students and inform programme development.

Community Volunteer

Serve the City Luxembourg · September 2021 – Present

Contribute to local community initiatives organised by Serve the City Luxembourg.

President

Cultural Association "Amici del Cammello" · June 2012 – Present

Lead a volunteer-run cultural association promoting reading, education and community participation through its bookshop and cultural activities.

Skills

Analysis

Statistical modelling, Machine learning, Economic forecasting, Out-of-sample evaluation, Data integration and quality control

Programming and data

Python, R, MATLAB, Stata, SQL

Research and communication

Research design, Peer-reviewed publishing, Data visualisation, Teaching, Technical and stakeholder communication
